Office Action Summary	Application No. 10/599,715	Applicant(s) SUZUKI ET AL.	
	Examiner Jonathan Crepeau	Art Unit 1795	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 2 and 3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 2 recites "The metal plate according to claim 1..." and claim 3 recites "The bottom surface according to claim 1..." however claim 1 is directed to "A liquid action substance battery...". Thus, the preambles are inconsistent. Correction is required. For examination purposes, claims 2 and 3 will be interpreted as having the same preamble as claim 1.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by JP 6-20704. In the abstract, the reference teaches a liquid action substance battery comprising an alkaline metal negative pole action substance and a liquid oxyhalide material as the positive pole action substance. As described in the abstract and in the Figure, a porous metal plate (5) is welded to

Art Unit: 1795

the inner surface of the bottom (4) of the battery can, such that a partial space is formed between the metal plate and the bottom of the can. Regarding claims 2 and 3, as best they are understood, both the bottom surface and the metal plate are “formed beforehand,” and the space is formed by the shape of either or both of the metal plate or the bottom surface. Thus, claims 2 and 3 also appear to be anticipated. Further, claims 2 and 3 are product-by-process claims (due to the limitations” formed by”, and “formed beforehand”) that do not recite a final product that is structurally distinguishable over the reference (see MPEP 2113). Thus, the claims are not distinguishable for this additional reason.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jonathan Crepeau whose telephone number is (571) 272-1299. The examiner can normally be reached Monday-Friday from 9:30 AM - 6:00 PM EST.
